

Your essential insurance software partner.

## Revenue Performance Management - RPM

Navris RPM enables an intelligent, analytics-fueled approach to revenue and financial management. Automatically aggregate, allocate, and track commissions and other revenue data. Not only help your agency workflow, but also become the trusted company of choice for your sales distribution channels. We know paying accurately and on-time goes a long way in building long term relationships.

RECEIVE COMMISSION DEPOSITS

ALLOCATE EASILY TO ALL PARTIES

EARN TRUST AND ENHANCE LOYALTY

## GET THE FULL PICTURE OF FINANCIAL PERFORMANCE

Navris RPM streamlines commission and revenue data from across your insurance carrier partners – breaking down silos and fueling more complete, more accurate metrics and KPIs. Enable multi-tiered commission accounting to accommodate any business arrangement with your internal sales advisors, outside independent distribution, and all other business partners. Allocate commission revenue accurately, easily, and efficiently, making all parties whole.

**100% Capture:** Capture commissions and other revenue from all insurance carrier partners into one streamlined model.

**Multiple Commission Arrangements:** Pay commissions according to various financial models: % of premium, % of commissions, fixed fee, or a combination of metrics.

**Run Commission Advance Programs**

# Integrated Banking and Revenue Management

Track Revenue by Insurance Company	Easily allocate Revenue by Policy	Pay Advisors on Any Time Schedule	Payout Commissions by EFT or check	Deliver Electronic Commission Statements
Track both deposits and statements from insurance companies and uplines to your company. Understand exactly what's coming in the door.	Efficiently allocate revenue by policy. Know exactly what's been paid and when and easily see which policies are missing commissions.	Complete flexibility to generate commission payouts on your preferred time frame; daily, weekly, monthly, more. Run multiple payout schedules.	Commissions are paid via EFT or check. Split commission payouts via multiple bank accounts.	Deliver one integrated revenue statement to your downline, combining all insurance company payouts per agent and per agency.

## Navris RPM – Revenue

### THE NAVRIS ONE TOOLSET

## Enterprise Core AMS

Navris provides Agents and Agencies with all the tools needed to run their business: from leads pipelines to policy renewals.

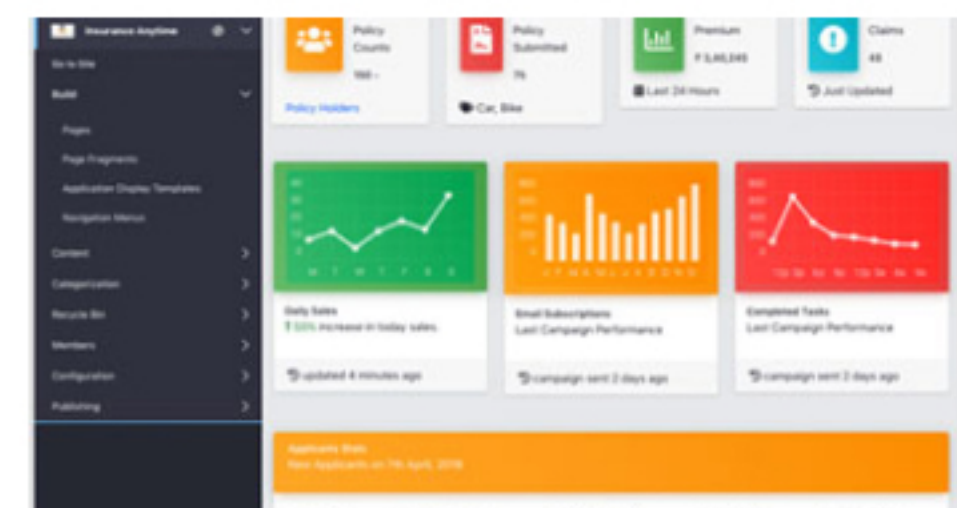

## RPM for Revenue Processing

Not only understand the revenue coming into your organization and pay your downline, utilize the awesome analytics to understand revenue by product, by product type, by client, and easily see which commissions you are missing.

## Agent & Agency Portals

Provide your Agents their own on-line account for your business. Agents and Agencies can log-in, view their book of business, see their commission statements and more! Analytics allow for easy sorting of revenue earned over time, by product type, by insurance company, and more!
